XV INTERNATIONAL CONGRESS

Outline:

1. Concept
2. Topics
3. Call for Papers
4. Sponsoring / Exhibition
5. Public Relations
6. Organizing Committee
7. Contact

Concept (I)

- Hosted by Deutscher Markscheider-Verein e.V. (German Mine Surveyor Association) and Institute for Mine Surveying, RWTH Aachen
- International ISM – Congress (every 3 years, 2013 under german presidential)
- National DMV - Congress „Energie und Rohstoffe (EuR)“ – Energy and Row Materials (every 2 years) is incorporated
- Scientific and technical lectures, Workshops (national part), Technical Forum, Posters, Proceedings
- Topics corresponding to ISM Structure plus late-breaking issues and national aspects

Concept (II)

- Official language of the ISM Congress is English, Russian sessions will be organized
- Official language of the EuR Congress is German
- Venue is the Eurogress Convention Centre, Aachen
- Technical Tours are placed at Congress end on Friday, Sept. 20 (with Common Farewell Dinner)
- ISM - / DMV - Presidium Meeting and Member Assembly
- Commission and Working group meetings

Concept (III)

- Evening Events
 - Come Together / Icebreaker (Bar Flowers)
 - Opening Ceremony (Town Hall, Coronation Hall)
 - Mine Surveyors Evening (Rahe Castle)
 - Gala Dinner (Pullman Hotel Quellenhof)

- Social and Cultural Tours

- Public Relations (Homepage, Press Releases, Mailings, Advertisements, Face-to-Face Contacts)

- Sponsoring Offers and Exhibition

Venue

- Aachen City – a place to live
- Flowers Bar (Come Together) – a place to meet
- Eurogress Convention Centre (Lectures and Exhibition) – a place to learn
- Town Hall, Coronation Hall (Opening Ceremony) – a place to think about
- Rahe Castle (Mine Surveyors Evening) – a place to talk
- Pullman Hotel Quellenhof (Congress Hotel) – a place to celebrate

Congress Topical Subjects

... corresponding to ISM Structure plus late-breaking issues and national aspects

- Instruments and Measurements (e.g. GNSS, InSAR), GIS and Mine Mapping
- Geometry of Mineral Deposits, Mineral Resources Management and Planning Tools
- Prediction and Monitoring of Rock and Ground Movements, Subsidence Issues
- Environmental Planning and Sustainability in Mining
- Mining Closure, Development of Abandoned Mines and Economic Transformation of Mining Regions
- Mine Water Management during and after Production Period
- New Energies and Developments (e.g. Conventional and Unconventional Gas, Geothermal Energy, CCS)
- Education and Legal Issues in Mine Surveying

XV International ISM Congress 2013

September 16 - 20, Aachen - Germany

Conference Schedule

- International Track (ISM)
 - official language is English
 - Russian sessions will be organized
- National Track (EuR)
- official language is German
- Exhibition simultaneously
- Technical Forum
- Poster Sessions
- Technical Tours at the end of the congress with common farewell
- Three Evening Events plus Come Together

Приглашение на XV международный конгресс MMA 2013 в Аахене

Объявление
Call for Paper
Конгресс-брошюра

Добро пожаловать!

Немецкая маркшейдерская ассоциация (НМА) приглашает Вас принять участие в XV Международном конгрессе MMA (Международной маркшейдерской ассоциации) в 2013 г. в Аахене.

Конгрессе предоставляет отличную платформу для научного обмена во всех аспектах маркшейдерского дела, горного дела и добывающей промышленности. Учитывая ее давнюю традицию добычи, Германия является одним из крупнейших и наиболее конкурентоспособных регионов горной промышленности в Европе с большим экономическим значением. Немецкая технология добычи, известные университеты и исследовательские центры мирового значения отвечают за передовую технологию в горной промышленности и связанных отраслях. Кроме того, Германия является глобальным игроком в развитии и разработке возобновляемых источников энергии.

Германия и в частности Аахен приглашает вас - с международной атмосферой, 2000-летней историей, богатым культурным наследием, красивым ландшафтом и великолепной окрестностью.

Мы рады приветствовать Вас в Аахене, и надеемся на Ваше участие в XV Международном конгрессе MMA в 2013 г.

С уважением,

Профессор д-р Аксель Прейссе
Председатель MMA

Карстен Ведекинд
Председатель НМА

März 2012

Pressemitteilung

**Weltweit größter internationaler Markscheider Kongress 2013 in Aachen
- 500 Teilnehmer erwartet -**

Die Internationale Gesellschaft für Markscheidewesen (International Society for Mine Surveying ISM) lädt in Zusammenarbeit mit dem Deutschen Markscheider-Verein e.V. (DMV) vom 16. bis zum 20. September 2013 zum XV. internationalen Kongress nach Aachen ein. Auf dem weltweit größten Markscheiderkongress treffen sich internationale Experten aus dem Markscheidewesen und Entscheidungsträger aus der Bergbau- und Rohstoffindustrie. Es werden 500 Teilnehmer erwartet.

Der ISM-Kongress dient dem internationalen Wissensaustausch über vielfältige Neuheiten auf dem breiten Feld des Markscheidewesens. Die nach 2009 (Goslar) und 2011 (Freiburg) alle zwei Jahre stattfindende nationale wissenschaftliche Konferenz Energie und Rohstoffe (E&R) des DMV findet 2013 gemeinsam mit dem ISM-Kongress statt.

Der Kongress beinhaltet Grundsatzvorträge, die Vorstellung wissenschaftlicher und technischer Arbeitsergebnisse, Arbeitsgruppentreffen, Exkursionen und eine begleitende Fachausstellung.

Veranstaltungsort ist das EUROGRESS Convention Center in Aachen. Eine die Veranstaltung begleitende Ausstellung in unmittelbarer Nähe zu den Vortrags- und Tagungsräumen bietet Anbietern von Vermessungsinstrumenten, CAD- und GIS-Software und Ingenieurleistungen die Möglichkeit sich einem internationalen Fachpublikum zu präsentieren.

Insbesondere für Sponsoren ist der Kongress eine optimale Umgebung sich zu präsentieren, Aufmerksamkeit auf neue Produkte oder Technologien zu lenken, das Unternehmen exklusiv im internationalen Rahmen darzustellen und in den Fokus der Medien zu gelangen.

Es werden verschiedene Sponsor-Pakete angeboten. Ein weiteres individuelles Sponsoring ist möglich. Auf der Kongresshomepage <http://www.ism-germany-2013.de> sind alle Details über Sponsor-Pakete und deren Preise zu finden. Eine direkte Kontaktaufnahme ist möglich über sponsoring@ism-2013.de.

Deutschland ist mit seiner langen Bergbautradition eine der größten und wettbewerbsfähigsten Bergbauregionen Europas. Die deutsche Bergbau- und Rohstoffindustrie und die
